## **DETAILED ACTION**

The applicant's remarks filed on 03/05/2008 have been received and considered. The amendment to claim 1 is acknowledged as is the cancellation of claim 8. In response to the applicant's arguments and amendment, all prior rejections are withdrawn.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 22-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 22 is directed to a toner which is obtainable by using the resin composition of claim 1. The claim does not discuss the manner in which the resin is to be used. It is unclear if the resin serves as a component of the toner or if the resin is used in some manufacturing step of producing the toner. Claims 23-25 are dependent on claim 22 and thus contain every limitation of claim 22 including the indefinite use claim and are therefore also indefinite.

***Allowable Subject Matter***

Claims 1-21 are allowed.

No prior art could be found that taught a resin composition comprising a crystalline polymer and a non-crystalline polyester having the requisite slope of the relaxation modulus when measured at 190 C and at the application of 450% of a shear strain.
